ABOUT AMERICAN WHITE OAK

All solid oak shelves, worktops and window sills are made from solid kiln dried American white oak and each product is custom made to order. Shelving & worktops possible up to 3.0m long and 1.1m wide, enables large projects to be catered for. This brochure displays some of the products available.

Here are some interesting fact about the white oak species:

Color/Appearance: Heartwood is a light to medium brown, commonly with an olive cast. Nearly white to light brown sapwood is not always sharply demarcated from the heartwood. Quarter sawn sections display prominent ray fleck patterns. Conversely, Red Oak tends to be slightly redder, but is by no means a reliable method of determining the type of oak.

Common Name(s): White Oak

Scientific Name: *Quercus alba*

Distribution: Eastern United States

Tree Size: 65–85 ft (20–25 m) tall,
3–4 ft (1–1.2 m) trunk diameter

Average Dried Weight: 47 lbs/ft³ (755 kg/m³)

Janka Hardness: 1,350 lbf (5,990 N)

Crushing Strength: 7,370 lbf/in² (50.8 MPa)

Shrinkage: Radial: 5.6%, Tangential: 10.5%

Grain/Texture: Grain is straight, with a coarse, uneven texture.

Rot Resistance: Rated as very durable; frequently used in boatbuilding and tight cooperage applications.

Workability: Can react with iron (particularly when wet) and cause staining and discoloration. Responds well to stains and finishes well

Odor: Has a tell-tale smell that is common to most oaks. Most find it appealing.

Common Uses: Cabinetry, furniture, interior trim, flooring, boatbuilding, barrels, and veneer.

FINISH OPTIONS

A full colour and finishing range is available with all solid oak shelving, worktop and window sill products and each piece is carefully treated by hand. Choose from a wax, oil, Lacquer or untreated if required. Our finishing product brands are Briwax/Rustins and Osmo Oil is available on request.

Solid oak shelving products are available with a wide range of edge profiles and corners providing a match for most modern and traditional furniture. Custom shapes and profiles can be added to shelving, worktops and window sills.

OAK SHELVING

OAK FLOATING SHELF EBONY SET

This solid oak floating shelf set can be finished in any colour to match and shown here in black ebony highlighting the beautiful grain in the oak. A nice modern feature for large walls and suitable for any room in the home or office. The set has square edges and corners and supplied as a set of three. Available in various lengths and with a choice of fixings.

OAK FLOATING SHELF CORNER SET

Oak floating shelves are made from 100% solid American white oak and shown here as a corner set finished in Danish oil. Useful in small kitchens, bathrooms and bedrooms and popular in the office too. Available as a set of five with optional edge profiles, shelf sets can be made to suit your style requirements.

OAK CORNER SHELF

The corner shelf set shown here with clear wax finish. Solid oak corner shelves are available up to 900mm deep with any edge profile and there are four styles to choose from. Can be installed in any room using traditional fixings or for a modern look choose the concealed shelf supports. Available separately or as a set.

OAK BATHROOM SHELF SET

Made from real solid oak the bathroom set has great modern style and shows off all the character in the oak. The set is shown here finished in clear oil and consists of large shelf, small shelf, mirror and worktop, all available separately. Popular with en-suites the worktop can be supplied with concealed fixings for a floating effect or mounted on a basin unit of your choice.

Chrome Brackets

OAK WALL SHELF

Traditional wall shelves are very popular and work well on plasterboard walls where a floating shelf may not be an option. Only quality oak is used and shown here with a Danish oil finish and with three bracket styles to choose from. Chrome brackets, modern oak, or a traditional oak. Available in a range of sizes to suit.

Traditional Brackets

Modern Brackets

Curved Corbel Shelf

OAK CORBEL SHELF

The traditional corbel shelf has three corbel designs to choose from with modern square shelf edges as standard. Available with a choice of profiles and finish colours the corbel shelf can be matched to most room styles. Popular for use as a mantel shelf but works well as a wall shelf in any room. Corbels are supplied with concealed fixings for easy installation.

Heart Corbel Shelf

Traditional Corbel Shelf

OAK CUBE SHELF SET

Solid oak cubes pictured here as a complete set with an oiled finish. Also available separately the cube set comprises large cube, two small cubes and a chunky floating shelf. The set fits in well in any modern setting, and can be used in any room in the home for trophies, pictures, ornaments or a lamp. The set can be arranged in any position to allow awkward shapes to be displayed in or on the cubes.

OAK FLOATING SHELF

By far the most popular shelf is the solid American white oak floating shelf. With excellent grain detail the shelf has unique character and can be used on any solid wall in any room. With a full choice of fixings, edge profiles and colour finishes to choose from the range offers a match for almost any style required. Floating shelves are available in standard and made to measure sizes.

OAK ALCOVE SHELF

The alcove shelf has been a popular choice for many years, the shelf set is available in standard sizes and a made to measure service can be arranged. Mostly used with a matching oak strip batten support, however the alcove shelf can also be supplied as a floating shelf if required. Any size opening can be accommodated and just add edge profiles and finishing to create a quality alcove shelf system.

OAK RADIATOR SHELF

Radiator shelves come with a range of options and for safety the round corners and edges are very popular. Most profile edges are available as well as square & chamfer corners. Radiator shelves are supplied with a choice of fixings and for an easy installation with no drilling of the wall we offer the 'slide behind' radiator bracket, but for a more solid fix the concealed shelf support is also available.

OAK BRUSHED SHELF

For something slightly rustic the brushed American oak shelf fits well with most room styles and can be used anywhere in the home or office. The shelf has a gently brushed grain with slightly distressed edges adding character to the oak while maintaining a modern look. Dark colours work best on the brushed shelf but can be finished with any colour and can be supplied with a range of fixings to suit.

OAK RECLAIMED SHELF

The Reclaimed shelf has a very rustic finish, while sanded smooth, still shows original features such as saw markings, chiselled features and occasional mortise holes. The reclaimed shelf is brushed to raise the grain before sanding over to remove the sharpness creating a wonderful finished appearance. Dark colours work best with the reclaimed shelf and Tudor oak is a favourite.

OAK WORKTOPS

OAK WORKTOP FULL STAVE

Oak full stave worktops are available in all sizes and lengths up to 3.0m long. The worktop has full length stave widths of 90-145mm for a superior look using carefully selected oak boards for a consistent finish. Suitable for kitchen worktops, breakfast bars, island units, desks and shelving the oak worktop can be supplied to any size requirements. Edge profiles, finishing and matching up stands also available.

OAK WINDOW SILLS

OAK BAY WINDOW

A made to measure service is offered on bay windows and all sizes can be accommodated. With just a standard edge, a lipped edge or a cut out, bay window sills can be supplied to suit your requirements, up to 3m long and depths up to 1.1m. Matching panels and ceiling kits available on bay windows.

OAK WINDOW BOARD

The standard window board is available in lengths up to 3m long and can be cut down to any size. Face sanded and with optional treatment, colours and edge profiles to choose from. The window sill also has a wide choice of depths and can be custom made to measure.

FIXINGS & BRACKETS

SHELF BRACKET (MODERN OAK) 35x35mm solid oak square section and available in sizes to suit shelf depths of 145–300mm. Each bracket will hold up to 10kg.

SHELF BRACKET (TRADITIONAL OAK) 20x40mm solid oak section and available in sizes to suit shelf depths of 145–300mm. Each bracket will hold up to 10kg.

SHELF BRACKET (CHROME) Chrome plated steel and suitable for shelf depths of 250–300mm. Each bracket will hold up to 15kg.

SHELF SUPPORT (Standard 12mm) Made from steel with adjustment +/- 3mm. Suitable for shelf depths of 95–300mm. Each support will hold up to 10kg at 150mm shelf depth.

SHELF SUPPORT (Adjustable 14mm Triade) Made from steel & alloy and fully adjustable in all directions. Fix directly to the wall or use with the optional shelf support bracket. Suitable for shelf depths of 185–300mm. Each support will hold up to 15kg at 185mm shelf depth.

SHELF SUPPORT BRACKET (for use with 14mm Triade) Provides extra strength for the triade shelf support if required. Made from steel and locates into the wall with a steel pin via a drilled hole and fixes with wall screws, triade shelf support can then be fixed to the wall bracket to give optimum support and also prevent tipping.

SHELF SUPPORT (Heavy Duty 16mm rebar) Made from 16mm solid steel bar. Suitable for shelf depths of 145–500mm. Each support will hold up to 25kg at 150mm shelf depth. Supplied with resin. Permanent bond.

TREATMENT & FINISHING

DANISH OIL – Danish Oil is uniquely formulated and is suitable for hard and soft wood. With an easy to use wipe on finish, Danish Oil brings out the beauty of the timber and gives a natural, open-grained, low-lustre finish.

Usages: Ideal for all interior and exterior bare wood, doors, joinery, garden and indoor furniture.

Maintenance: Intermittent re-oiling for interior wood may be required. Just clean surface with White Spirit and apply oil. For exterior wood, re-oiling should take place at least once a year to keep the wood sealed.

TUNG OIL – Pure Tung Oil will give a hard wearing finish, with good infiltration into all types of timber without leaving a film. A purely natural non-toxic oil, free from solvent. With its special properties, Pure Tung Oil is suitable for kitchen work surfaces, chopping boards and interior woodwork, safe for use in contact with food. Pure Tung Oil is highly resistant to water, alcohol and food stuff stains.

Usages: Ideal for all interior and exterior bare wood, doors, joinery, garden and indoor furniture.

Maintenance: Intermittent re-oiling for interior wood may be required. Just clean surface with White Spirit and apply oil. For exterior wood, re-oiling should take place at least once a year to keep the wood sealed.

TEAK OIL – Teak Oil is based on special vegetable oils and resins to give a quick drying penetrating seal to Teak, Cedar and all bare wood. Easily applied with a brush or cloth. Gives an attractive sheen on interior and exterior surfaces.

Usages: Ideal for all interior and exterior bare wood, doors, joinery, garden and indoor furniture.

Maintenance: Periodic re-oiling is required. For use outdoors re-oiling should be carried out annually. Clean surfaces before re-oiling using white spirit.

OSMO OIL – Osmo Oil is a unique formula of oils and waxes designed for the natural treatment of wooden floors, doors, shelves, furniture and many other internal joinery projects leaving a quality finish. Osmo Polyx Oil hard wax oil matt/satin is designed to penetrate, protect and enhances the natural beauty of the wood, leaving a flexible, micro porous, lightly waxed finish. It protects against normal household liquids including water, wine, beer, tea, coffee and many more, yet still leaving the wood with a natural look and feel that won't peel, flake or crack like a varnish may do.

Usages: Ideal for all interior bare wood, doors, joinery and indoor furniture.

Maintenance: Periodic re-oiling is required. Clean surfaces before re-oiling using white spirit.

BRIWAX – Briwax Original is a blend of Beeswax and Carnauba waxes and gives an instant natural sheen to bare wood. Briwax is ideal for use on shelving, bookcases, wood carvings and turned wood, floors, skirting boards and doors. It is widely used in the pine furniture industry and works very well on oak.

Usages: Ideal for all interior bare wood, doors, joinery and indoor furniture.

Maintenance: The renowned Briwax finish can be maintained by further applications, giving increased hardness and shine.

LACQUER Lacquer gives a hard wearing sealed surface and waterproofs. Water-based self-cross linking acrylic emulsion. The varnish looks milky-white whilst liquid but dries to a hard, durable transparent finish, resistant to water and alcohol. Available in Gloss or Satin finish.

Usages: Ideal for all interior bare wood, doors, joinery and indoor furniture.

Maintenance: The surface can be cleaned as required with a mild detergent solution, do not use aggressive cleaning products. Re-coat the varnish as necessary, after cleaning and lightly sanding the surface.
